

ST. DAMIEN PEDIATRIC HOSPITAL, HAITI

2017 By the Numbers

Developed in 2013 as part of the St. Damien Collaborative for the Improvement of Pediatrics, the hospital's Residency Program is helping to address the critical shortage of pediatricians in Haiti.

6 residency program graduates

14,946 consultations

3,673 admissions

2,786 babies delivered

7,371 maternity visits

3,063 neonatal consultations

1,475 oncology consultations

78 new cancer cases

ABOUT HAITI

Located less than 1,000 miles from the U.S., Haiti is plagued by both political instability and natural disasters. 80% of the population lives below the poverty line, surviving on less than \$2 a day. Access to healthcare is essentially non-existent. According to UNICEF, Haiti has the highest rate of infant, under-five and maternal mortality in the Western Hemisphere. The January 2010 earthquake caused an estimated 300,000 injuries, which exacerbated the limited healthcare services.

10,760 Vaccinations

4,680 Dental clinic consultations

3,417 HIV program consultations

3,340 Surgeries (including ambulatory)

2,500 Emergencies

1,547 Tuberculosis consultations

1,195 Rehydration center consultations

536 Local people employed
